

**The B3OA laboratory seeks highly motivated post-doctoral students to develop collaborative funding proposals for submission to the Horizon Europe Marie program Skłodowska-Curie Individual Fellowship (IF) in the field of skeletal tissue engineering.**

The B3OA laboratory at the University of Paris seeks to develop funding proposals in collaboration with experienced researchers for submission to the Horizon 2022 Marie program Skłodowska-Curie Individual Fellowship (IF) in the field of skeletal and intervertebral disc tissue engineering. For detailed information on our research interests, please visit our website (<https://www.b3oa.cnrs.fr/en/about-us/>). If you are interested, please contact Hervé Petite at the following address: [herve.petite@univ-paris-diderot.fr](mailto:herve.petite@univ-paris-diderot.fr).

**The B3OA laboratory:** The B3OA laboratory comprises orthopedic surgeons, dentists, veterinarians, biologists, biochemists, and engineers who have published leading articles in international scientific journals. The B3OA team is affiliated with the Centre National de la Recherche Scientifique (CNRS), the Institut National de la Santé et de la Recherche Médicale (INSERM), the University of Paris, and the École Nationale Vétérinaire d'Alfort (ENVA). Our close links with these national institutions and our numerous international collaborations in Europe and the United States give rise to world-renowned interdisciplinary and multidisciplinary research in the field of skeletal and intervertebral disc tissue engineering. The B3OA laboratory is fully equipped with state-of-the-art equipment and research techniques for molecular and cell biology, histological analysis, bio-imaging, and small animal research. For all other equipment, the B3OA team has access to the central facilities of the CNRS, INSERM, ENVA and the University of Paris.

**Deadline:** The deadline for applications for scholarships is September 14<sup>th</sup> 2022.; however, if you are interested in our laboratory, please contact us as soon as possible to help you with the application procedure and no later than July 15<sup>th</sup> 2022.

More information on these individual scholarships is available on the following website. : <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-msca-2022-pf-01-01>
